

## Students in Out-of-Home (Foster) Care

The board recognizes that students in out-of-home or foster care experience mobility in and out of these care systems and from one home placement to another that disrupts their education, thereby creating barriers to academic success and on-time graduation. Through collaboration with state, local and/or tribal child welfare agencies, the district will strive to minimize or eliminate educational barriers for students in foster care, particularly with regard to enrollment, transfer of student records, and transportation to their school of origin unless it is not in the student's best interest to attend the school of origin. Pursuant to Chapter 28A.225 RCW, the district's collaboration with the state department of children, youth, and families in compliance with RCW 74.13.56 is mandatory.

The district and its schools will work to improve systems to identify students in out-of-home care to ensure that each student has proper access to free school meals and that applicable accountability and reporting requirements are satisfied.

The superintendent or designee is authorized to establish procedures and/or practices for implementing this policy.
